

Blue Sticky Mats

◆ Product Description

The Blue Sticky Dust Floor Mat is specially designed for high-cleanliness environments. It uses a multi-layer polyethylene film lamination technology, with each layer coated in a high-tack adhesive coating. This allows it to quickly capture dust, hair, and debris carried by shoe soles, wheels, and other contact surfaces, effectively reducing environmental pollution caused by particulate matter.

- High Cleanliness Adaptation
- Multi-Layer Composite Structure
- High-Tack Adhesion
- High-Efficiency Dust Removal
- Environmental Cleanliness Assurance

◆ Product Structure

- The blue dust-adhesive floor glue adopts a multi-layer composite structure, composed of a surface protection system, a core functional layer and a bottom support system. Through the co-extrusion process, it realizes the design of viscosity gradient and anti-slip & wear-resistant performance, featuring high-efficiency dust adhesion, anti-static property and environmental friendliness with peelability.

◆ Typical Applications

- The blue dust-adhesive floor glue is suitable for multiple scenarios such as industrial cleanrooms, medical environments, commercial spaces, and households. It features high-efficiency dust adhesion, anti-static property, antibacterial function, and anti-slip performance. Through modular design, it achieves scenario-specific customization, combining durability with cost advantages. It serves as a comprehensive dust control solution for all scenarios.
