

Blue Push Wheel

◆ Product Description

Special auxiliary tool for screen film application.

The roller is smooth without any jamming.

Pressing it against the screen can quickly expel air bubbles, keeping the film flat. The blue appearance is eye-catching and easy to use.

◆ Product Advantages

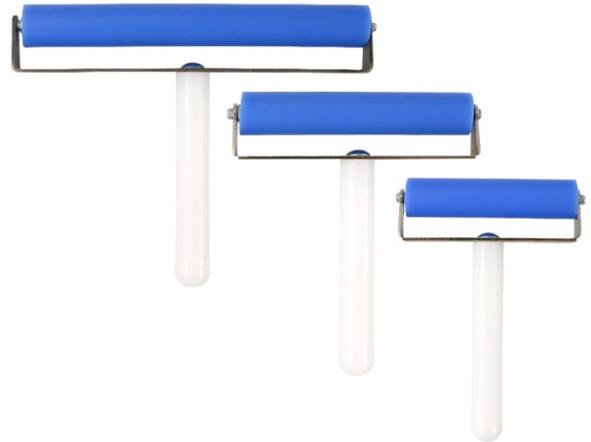

- The rollers are smooth without resistance
- Efficient removal of film bubbles
- It fits the screen well without damaging the film
- The blue color is eye-catching and easily recognizable
- Comfortable and effortless to hold

◆ Product Structure

It adopts a combination of anti-slip handle and high-smoothness soft rubber rollers. The handle fits the arc of the hand, and the rollers are wear-resistant. The overall design is lightweight and easy to operate, with no sharp edges or corners that will not scratch the equipment.

◆ Application Scenarios

It is suitable for applying films to devices such as mobile phones, tablets and cameras, and is compatible with tempered films and water-condensed films. It can be used in personal film application, mobile phone store services and digital accessory matching scenarios.

◆ Technical Features

Silicone manual roller
 Suitable for handheld use
 Flexible rotation
 Wear-resistant
 Reusable for screens of various sizes.
