

## Sticky Roller Handle

### ◆ Product Description

The handle of the sticky dust roller is a core control component of the roller, designed to optimize user interaction experience. Through ergonomic design, durable materials, and flexible adaptability, it enables efficient cleaning operations, serving as a key accessory for enhancing cleaning efficiency.

- Ergonomic non-slip design
- Lightweight high-strength materials
- Retractable adjustable length
- Convenient storage hook
- Multifunctional interface compatibility

### ◆ Product Structure

- The core structure of the sticky dust roller handle includes an ergonomic grip, high-strength connecting shaft, retractable adjustment mechanism, and multifunctional interface, supplemented with a rear hanging hole/magnetic base for convenient storage.

### ◆ Typical Product Data and Physical Properties

Handle material: High-strength ABS plastic  
 Telescopic rod material: Aluminum alloy inner tube  
 Color: Silver/Blue  
 Unextended handle length: 70cm  
 Maximum extended handle length: 120cm  
 Handle diameter: 28mm  
 Telescopic stages: 3-stage telescopic design

#### Availability:

| Item#          | Color       | Packing   |
|----------------|-------------|-----------|
| 1.3.03.04.0005 | Silver/Blue | 1 pcs/bag |

### ◆ Typical Applications

- The sticky dust roller handle is widely applicable in home, office, automotive interiors, industrial workshops, and medical cleanrooms. When paired with the sticky dust roller, it enhances cleaning efficiency and meets the needs of all scenarios from daily household use to industrial automation.
