

## ESD Folder

### ◆ Product Description

ESD File Folder is an office stationery specifically designed for electrostatic protection areas and dust-free environments, and is mainly used for safely categorizing, filing and storing A4-sized punched documents, reports, drawings, etc.

- Full-Range Long-Lasting Anti-Static
- Ring-Type Structure
- Tough and Durable Material
- User-Friendly and Practical
- Improve Production Efficiency and Product Quality

### ◆ Product Structure

- ESD File Folder uses anti-static PP as the main body, and establishes an equipotential conductive network through nickel-plated ring bodies, brass conductive rivets and conductive rubber gaskets; the 2-ring model features D-shaped rings with single-button opening and closing (holding ≤ 80 pages), while the 4-ring model is equipped with circular rings and double-button synchronized opening and closing (holding ≤ 150 pages), with structural differences adapting to different page counts.

### ◆ Typical Applications

- ESD Double-Clip File Folder realizes document management and electrostatic protection in scenarios such as microelectronics chip workshops, LCD production lines, medical clean laboratories, and new energy lithium battery workshops, with the characteristics of stable clamping by double clips, equipotential anti-static function and scene adaptability.

### ◆ Typical Product Data and Physical Properties

Material: Antistatic PP (Polypropylene)

Color: Black

Style: 2-ring / 4-ring

Product Thickness: 2-ring: 0.4 mm / 4-ring: 0.3 mm

Maximum Capacity (Pages): 2-ring: ≤ 80 pages / 4-ring: ≤ 150 pages

Resistance: 10E5-10E9Ω

Friction Voltage: < 100 V

Charge Decay Time: ≤ 1 second

#### Availability:

Item#	Color	size	Style
1.3.11.02.0009	Black	A4	2-ring
1.3.11.02.0010	Black	A4	4-ring
