

Document Bag

◆ Product Description

File folders are versatile storage accessories for general file and document storage in office settings, featuring a convenient snap fastener closure design. They are available in two main types: industrial anti-static type and regular office type, which are respectively adapted to different usage needs such as daily office file and document management, and integrate protective performance, ease of use and durability.

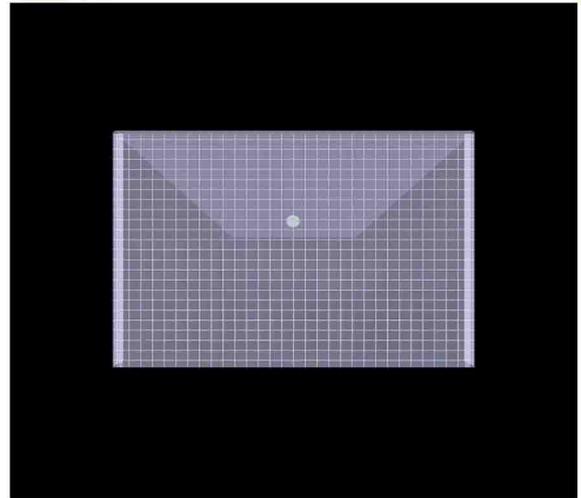

- High-quality tough material, durable & fold-resistant
- Snap fastener closure, convenient & sturdy
- Waterproof & stain-resistant, thoughtful protection
- High transparency for clear visibility, quick & easy item access
- Multiple sizes available, flexible storage

◆ Product Structure

● This document bag features an envelope-style one-piece molded structure, consisting mainly of a PP main bag body and a precision-aligned ABS snap fastener closure system. Its both sides and bottom adopt ultrasonic edge sealing technology, with all four corners finished with rounded edges. The whole bag is lightweight in design, while boasting airtight sealing and long-lasting durability, making it ideal for storing various types of office documents and materials in daily office scenarios.

◆ Typical Applications

- This document bag is suitable for various daily scenarios including office work, study and travel. In corporate office settings, it can hold contracts, invoices, meeting minutes and work instructions; it also serves as an ideal choice for the finance department to sort out bills and the administration department to file documents and materials.
