

Camera Protective Film

◆ Product Description

Designed specifically for device cameras, it adheres to the module, is scratch-resistant, dust-proof, and resistant to minor bumps, does not affect the clarity of photos, is thin, invisible, and easy to install.

◆ Product Advantages

- High-definition light transmission without blocking the camera
- Scratch-resistant, shock-resistant and dust-proof
- It adheres tightly and does not fall off
- It is light, thin, invisible and not conspicuous
- Easy to install with no residue

◆ Technical Features

The base material is a high-definition tempered film with a light transmittance of over 99%. The adhesive on the back leaves no residue and is precisely compatible with the corresponding device's camera.

◆ Product Structure

It adopts a high-definition protective base material and a sticky back adhesive structure. The surface is scratch-resistant and wear-resistant. The back adhesive has moderate adhesion, adheres without bubbles, and the edges are neatly cut, making it suitable for camera sizes.

tem Code (SKU)	Diameter	Weight (kg)	Packing Detail
1.3.17.01.0063	4.5mm	0.0014	1pc/box
1.3.17.01.0064	5.1mm	0.0015	1pc/box
1.3.17.01.0065	7.1mm	0.0017	1pc/box
1.3.17.01.0066	8.0mm	0.0026	1pc/box
1.3.17.01.0067	1.0mm	0.0031	1pc/box
1.3.17.01.0068	1.2mm	0.0028	1pc/box

◆ Application Scenarios

It is applicable to mobile phones, tablets, cameras and other devices, providing protection for new devices, daily scratch prevention and post-repair protection. It is suitable for individual users and digital accessory sales scenarios.
