

## Hot Glue Stick

### ◆ Product Description

Based on EVA resin as the core base material, supplemented with high-quality tackifiers and antioxidants, this hot melt adhesive stick is a versatile bonding tool for industrial production, handcraft creation, and daily maintenance.

- Strong Bonding & Long-Lasting Durability
- Rapid Curing & Efficiency Enhancement
- Multi-Material Compatibility & Wide Adaptability
- Eco-Friendly & Safe for Worry-Free Usage

### ◆ Product structure

Electronics and Electrical Industry: Component fixing, circuit board encapsulation, LED lamp assembly  
Packaging Industry: Carton sealing, label pasting, product buffer filling and bonding  
Construction and Decoration Industry: Door and window sealing, decorative material fixing  
Leather and Footwear Materials: Leather shoe upper bonding, footwear material shaping

### ◆ Typical Product Data and Physical Properties

Standard Diameter: 7mm, 11mm (internationally universal)

Standard Length: 100mm, 270mm

Color: Transparent, White, Beige

Net Weight: Approx. 1kg

Surface: Smooth and homogeneous, free of bubbles or impurities

#### Availability:

Material Code	Product Name	Weight
1.3.22.00.0002	Hot Glue Stick	1KG

### ◆ Typical Applications

- ESD U-shaped Brush is suitable for electronic manufacturing, automotive electronics, precision instruments, communication equipment and consumer electronics fields. It enables 360° surrounding cleaning of irregular components such as cables, pins and interfaces as well as gaps, while providing anti-static protection to avoid damage to sensitive components.

### ◆ Technical and Application Assistance

HORB provides a technical hotline to answer your technical and application related questions.
