

## Stainless Steel Table

### ◆ Product Description

This stainless steel table is a high-quality piece of equipment specially designed for specific scenarios (such as the installation of testing instruments). Crafted from premium stainless steel with exquisite workmanship, it features outstanding stability, durability and practicality, and is well-suited to meet the operational demands of professional working environments.

- Premium Material Corrosion Resistant And Durable
- Stable Structure Strong Load-bearing Capacity
- Functional Adaptation For Professional Scenarios
- Fine Craftsmanship Excellent Sealing Performance
- Compact Size Optimal Space Adaptability

### ◆ Product Structure

- The main body of the stainless steel table is welded with 304 stainless steel square tubes. The table top and baffle are made of 1MM thick 304 stainless steel brushed sheet, with the upper table top embedded with 12MM density board for reinforcement. The bottom is equipped with 304 stainless steel adjustable foot cups with 38MM chassis. It is furnished with stainless steel hooks and 3-position grounding terminal strips. The four round holes at the four corners of the detector mounting base are tapped with threads. the joint of the baffle fitting position is sealed with fine glass glue, and all other joints are fully welded. The clearance between the top and the bottom of the table top is 30MM.

### ◆ Typical Applications

- This stainless steel table is suitable for laboratory testing, electronic workshop operation, medical assistance, industrial quality inspection and scientific research training scenarios. With the advantages of corrosion resistance and easy cleaning of 304 stainless steel, compact dimensions, stable sealing performance and professional functional adaptability, it meets the safety and practical application requirements of all applicable scenarios.

### ◆ Typical Product Data and Physical Properties

Main Frame Material: 304 Stainless Steel  
Table Top/Baffle Material: 304 Stainless Steel Brushed Sheet  
Support Foot Cups: 304 Stainless Steel  
Functional Accessories: 304 Stainless Steel Hooks, 3-position Grounding Terminal Strip  
Overall Dimensions: W550\*D550\*H800MM  
Welding Process: Full Welding for Main Frame and All Joints  
Sealing Process: Glass Glue Sealing  
Installation Method: Horizontal Placement

### Availability:

Item#	Size	Weight
1.4.01.01.0079	W550*D550*H800MM	18kg
