

Multifunctional Transport Cart

Product Description

This multi-functional transport cart is black, made of injection-molded solid conductive material, with permanent anti-static performance, four conductive wheels, qualified load capacity and resistance.

Product Advantages

- Injection-molded Solid Conductive, Permanent Anti-static
- Black Appearance, Dirt-resistant And Easy To Clean
- Four Conductive Wheels, Flexible And Smooth Movement
- Qualified Load Capacity, Suitable For Heavy Load Needs
- Qualified Resistance, Reliable Anti-static Performance

◆ Product Structure

It is a black multi-functional transport cart, made of injection-molded solid conductive material, with four conductive wheels, stable structure, permanent anti-static performance and smooth movement.

◆ Application Scenarios

It is suitable for anti-static scenarios such as electronics factories, used for transporting heavy objects, flexible movement, stable anti-static performance and sufficient load capacity.

◆ Technical Features

Main Material: Injection-molded Solid Conductive Material

Product Color: Black, Dirt-resistant And Easy To Take Care Of

Wheel Configuration: Four Conductive Wheels

Anti-static Resistance: $\leq 1.0 \times 10^9 \Omega$

Rated Load Capacity: 200KG, Suitable For Heavy Load

Item#	Dimensions	Weight	Packaging
1.4.03.02.0036	L660*W445*H200MM	6kg	individually
