

## Gas Tank

### Product Description

Industrial carbon steel/stainless steel gas storage tank, integrated welding, pressure-resistant explosion-proof, anti-corrosion sealing, stable pressure gas storage, supporting safety accessories, suitable for air compressor pneumatic system.

### Product Advantages

- Pressure-resistant
- Explosion-proof
- Durable anti-corrosion sealing
- Stable pressure supply
- Solid integrated welding and safety accessories
- 

### ◆ Product Structure

Carbon steel/stainless steel plate integrated spinning welding tank body, sealing structure of head, safety valve + pressure gauge + safety accessories of drain outlet, shockproof leg, flange air inlet and outlet interface, and anticorrosive internal coating.

### ◆ Application Scenarios

Air compressor supporting, industrial pneumatic equipment, automatic production line, auto repair workshop, metallurgical machinery, spray paint equipment

### ◆ Technical Features

The working pressure is 0.8-1.6MPa Anti-static  
 The volume is 0.1-10 m<sup>3</sup> (multiple specifications)  
 The tank body is made of Q235 carbon steel/304 stainless steel  
 The pressure of pressure test is ≥ 2.0 MPa  
 The sealing grade is no leakage  
 The anti-corrosion grade is C2-C3  
 And the protection grade is IP54

Item#	Weight	Packaging Method	Color
1.4.24.01.0107	8kg	one unit per box	
1.4.24.01.0120	8kg	one unit per box	
1.4.24.01.0016	8kg	one unit per box	
1.4.24.01.0023	8kg	one unit per box	
1.4.24.01.0027	8kg	one unit per box
