

## Automatic Air Vent Valve

### ◆ Product Description

Automatic Air Vent Valve, float-type automatic exhaust, high exhaust efficiency, leak-proof, high pressure and impact resistance, free of manual operation, suitable for big bore fluid pipeline exhaust.

### ◆ Product Advantages

- Automatic air exhaust of that float ball
- High air exhaust efficiency
- Sealing and leakage prevention
- High pressure resistance and impact resistance
- Adaptability to big bore pipeline.

### ◆ Product Structure

Brass valve body forged, float-type automatic control structure, high sealing exhaust port, filter screen type water inlet design, flange connection interface, anti-rust and anti-corrosion treatment.

### ◆ Application Scenarios

Industrial water supply and drainage pipeline, HVAC main pipeline, fire water pipeline, large fluid transmission system, exhaust pipeline of water pump station.

### ◆ Technical Features

Valve body material: brass  
 Interface specification: DN25/DN50  
 Working pressure: 0.1-1.6MPa  
 Working temperature: -5 ~ 110 °C  
 Displacement:  $\geq 0.5\text{m}^3/\text{H}$   
 Sealing grade: VI  
 Adaptive medium: water/antifreeze

Item#	size	Weight
1.4.24.01.0525	DN50	0.3kg
1.4.24.01.0526	DN25	0.3kg
