

## Frequency converter

### Product Description

The frequency converter is specially designed for 3 KW fan, with precise frequency conversion control, remarkable energy-saving effect, overload protection function, easy operation, and suitable for industrial power regulation.

### ◆ Product Advantages

- Precise frequency conversion
- Energy saving and high efficiency
- Overload protection
- Simple operation
- Strong adaptability
- 

### ◆ Product Structure

Modular design, high-definition operation panel, overload protection module, cooling system optimization, sealed wiring terminal, wall-mounted installation structure

### ◆ Application Scenarios

Industrial fan speed regulation, water pump control, production line power regulation, air conditioning unit, automation equipment frequency conversion drive

### ◆ Technical Features

Adaptive power: 3  
 Input voltage: 380V ± 10%  
 Output frequency: 0-50 Hz  
 Control accuracy: ± 0.1 Hz  
 Protection grade: IP20  
 Efficiency: ≥ 97%

Item#	Weight	Packaging Method	Color
1.4.24.01.0857	2.79kg	one unit per box	Black
