

Temperature Indicator Card

◆ Product Description

This temperature indicator card is a six-point cobalt-free humidity color-changing detection card, cobalt-free and environmentally friendly, accurately detecting humidity with color change, sensitive response for electronic components detection.

◆ Product Advantages

- Cobalt-free And Environmentally Friendly, Safe And Pollution-free
- Six-point Detection, Accurate Humidity Detection
- Sensitive Color Change, Fast And Intuitive Response
- Convenient Reading, No Complex Operation
- Wide Adaptability, Special For Electronic Components

◆ Product Structure

It is a thin sheet structure, with six humidity detection areas on the surface, made of cobalt-free color-changing material, thin and light, regular structure, sensitive color change to display humidity changes.

◆ Application Scenarios

It is suitable for electronic components, precision instruments and warehouse packaging, detecting humidity of environment and products, intuitively displaying humidity status through color change to ensure safety.

◆ Product Data and Physical Performance

Main Material: Cobalt-free Environmental Protection Material, Safe And Non-toxic
 Detection Performance: Six-point Detection, Accurate Humidity Identification
 Color Change Performance: Sensitive Response, Clear And Intuitive Color Change
 Usage Performance: Thin And Light, Easy To Carry And Use
 Stability Performance: Stable Performance, Not Easy To Fail

Material Code	Weight	Packaging
1.5.07.01.0025	0.01kg	500pcs/box
