

## Thermocouple Thermometer

### ◆ Product Description

This thermocouple thermometer is model dt1310, accurate temperature measurement, fast response, suitable for various temperature measurement scenarios, with only one green wire, easy to operate and read.

### ◆ Product Advantages

- Model Dt1310, Accurate And Reliable Temperature Measurement
- Fast Response, Rapid Temperature Display
- Simple Operation, Clear And Intuitive Reading
- Wide Adaptability, Universal For Multi-scenario Temperature Measurement
- Simple Structure, Convenient And Worry-free To Use

### ◆ Product Structure

It is a simple integrated structure, the main body is equipped with temperature measuring element, one green wire for signal transmission, clear dial, compact and light, sensitive temperature measurement response.

### ◆ Application Scenarios

It is suitable for industrial production, laboratories, equipment detection and environmental temperature measurement, quickly detecting temperature of workpieces, environment and equipment with accuracy.

### ◆ Product Data and Physical Performance

Main Material: High-quality Plastic, Light And Durable

Temperature Measurement Performance: Accurate Temperature Measurement, Fast Response

Wire Performance: Green Wire Transmission, Stable Signal

Reading Performance: Clear Dial, Accurate Reading

Durability Performance: Anti-fall And Wear-resistant, Long Service Life

Material Code	Weight	Packaging
1.5.07.11.0090	0.25kg	1 set/box
