

Alarm Type Body Electrostatic

Release Device

◆ Product Description

This alarm-type human static discharger consists of a pole, a ball, a ground wire and an esd label, which can quickly release human static electricity and alarm automatically when not fully released.

◆ Product Advantages

- Automatic Alarm, More Guaranteed Static Release
- Complete Components, Pole, Ball And Ground Wire Adaptable
- Easy To Operate, Static Can Be Released By Touching
- ESD Label, Clear Warning At A Glance
- Strong Protection, Ensuring Personnel And Equipment Safety

◆ Product Structure

It is composed of a pole, a static release ball, a ground wire and an esd label, with stable structure, comfortable ball touch, reliable ground connection and sensitive alarm function.

◆ Application Scenarios

It is suitable for electronics factories, clean rooms and dangerous goods warehouses, quickly releases human static electricity and alarms to prevent potential safety hazards.

◆ Technical Features

- Pole Material: High-quality Stainless Steel, Sturdy And Durable
- Ball Material: Conductive Plastic, Comfortable To Touch
- Ground Wire Material: Copper Core Wire, Excellent Conductivity
- Label Material: Waterproof Pvc, Clear And Wear-resistant
- Core Performance: Sensitive Alarm, Efficient Static Release
