

## Grinding Pen

### ◆ Product Description

Small handheld design, driven by high-speed motor, flexible replacement of grinding heads, adjustable speed, fine grinding without scratches, used for grinding and polishing of precision parts and electronic components.

### ◆ Product Advantages

- Driven by high-speed motor
- Replaceable grinding heads
- Continuously adjustable speed
- Fine grinding without scratches

### ◆ Technical Features

Material: ABS + metal movement  
 Power: 30W  
 Speed range: 5000-20000r/min  
 Grinding head specification: 2-8mm  
 Power supply: Lithium battery power supply

### ◆ Product Structure

Composed of handheld body, high-speed micro motor, replaceable grinding head and speed adjustment switch, the body is small and light, comfortable to hold, sensitive speed adjustment, and stable grinding without shaking

Material code	weight	Packaging method
1.5.13.01.0035	0.33kg	1pc /box

### ◆ Application Scenarios

Suitable for deburring and surface polishing of electronic components and precision parts, as well as repair and grinding of casings and parts after electronic equipment disassembly, adapting to fine grinding scenarios.
