

## ESD Constant Temperature Welding Table

### ◆ Product Description

Anti-static constant temperature welding table, precise and stable temperature control, excellent anti-static performance, fast temperature rise, suitable for precision welding of electronic components.

### ◆ Product Advantages

- Reliable anti-static
- Accurate temperature control
- Rapid temperature rise
- Smooth welding
- Strong durability

### ◆ Product Structure

Anti-static material worktable, built-in PT100 temperature control sensor and heating core, grounding anti-static design, anti-skid base.

### ◆ Application Scenarios

Electronics factory assembly line, PCB board welding, precision instrument maintenance, mobile phone computer maintenance, components welding, laboratory research and development.

### ◆ Technical Features

Temperature range: 100-480 °C;

Static power consumption: ≤ 60 W

Material Code	Weight	packing
1.5.18.02.0008	1.76kg	1Pcs

### ◆ Remarks

HORB has a technical hotline for technical and usage inquiries. This information is deemed accurate, for professional end users only. HORB data is for reference.
