

Spot Welder

◆ Product Description

High-precision spot welding machine, fast and firm welding, adjustable current and voltage, easy to operate, suitable for precision spot welding scenes such as metal sheets, electronic component pins, etc.

◆ Product Advantages

- Precise spot welding
- Firm welding
- Adjustable parameters
- Easy operation
- Outstanding efficiency

◆ Product Structure

Stainless steel body, built-in high-frequency transformer and precision control module, wear-resistant design of spot welding head, pedal/manual dual-control mode.

◆ Application Scenarios

Battery assembly, electronic component welding, metal sheet connection, precision instrument processing, small household appliances production, hardware accessories spot welding.

◆ Technical Features

Welding current: 10-50 A

Spot welding time: 0.01-3s

Material Code	Weight	packing
1.5.18.03.0005	0.42kg	1Ea
