

Spot Welding Machine In One

◆ Product Description

Spot welding burn-in machine two-in-one equipment, function integration, synchronous adaptation of welding burn-in machine, flexible operation, adapting to multi-scene precision processing requirements.

◆ Product Advantages

- Function integration
- Flexible operation
- Firm welding
- Accurate burn-in
- Wide adaptability

◆ Technical Features

Welding current: 15-60A;

Working voltage: AC 220V/110V

Material Code	Weight	packing
1.5.18.03.0008	0.48kg	1Ea

◆ Product Structure

Integrated body design, built-in two-way control module, switchable spot welding/burn-in mode, equipped with special fixture and cooling system.

◆ Application Scenarios

Battery Pack production, electronic component processing, small hardware welding, precision instrument manufacturing, laboratory research and development, maintenance and processing.

◆ Remarks

HORB has a technical hotline for technical and usage inquiries. This information is deemed accurate, for professional end users only. HORB data is for reference.
