

## Digital Display Heating Station

### ◆ Product Description

This digital display heating table is a white standard model, equipped with a digital temperature control system, uniform and fast heating, precise temperature adjustment, easy to operate for various heating scenarios.

### ◆ Product Advantages

- Digital Display Temperature Control, Precise And Intuitive Temperature Adjustment
- White Standard Configuration, Simple Appearance Suitable For Multi-scenarios
- Uniform Heating, Fast Temperature Rise And High Efficiency
- Convenient Operation, Easy To Learn For Beginners
- Safe And Durable, High Temperature Resistant And Not Easy To Damage

### ◆ Technical Features

Main Material: High-quality Flame-retardant Plastic  
 Tabletop Material: High Temperature Resistant Panel, Flat  
 Temperature Control Performance: Digital Precise Temperature Control  
 Heating Performance: Uniform Heating  
 Usage Performance: Good Insulation

### ◆ Product Structure

It is an integrated white standard structure, equipped with digital temperature control module and heating components, flat and smooth tabletop, simple operation panel, compact for desktop heating work.

Item#	Model	Weight	Packaging
1.5.19.05.0014	BY-1010	4.5kg	1set/Carton

### ◆ Application Scenarios

It is suitable for electronic maintenance, auto beauty, industrial heating, manual diy and home repair, completing desoldering, heat shrinkage and paint removal with high efficiency.
