

Intelligent Digital Display Heat

Gun

◆ Product Description

BFN F-7200 (HHB-630) Intelligent Digital Display Heat Gun The temperature of this heat gun is freely adjustable from 50 to 630°C, with a clear digital display function for easy operation. It is suitable for a variety of hot air operation scenarios.

◆ Product Advantages

- Intelligent digital display, temperature visible at a glance
- 50-630°C wide temperature range, wide compatibility
- Easy operation, quick to master
- Precise temperature control, stable operation
- Dual model marking, suitable for diverse application needs

◆ Product Structure

Designed with a compact body, it is equipped with an intelligent digital display module and a precision temperature adjustment structure. Model BFN F-7200 (HHB-630) offers a comfortable grip, along with precise temperature control and effortless operation.

◆ Application Scenarios

It is ideal for desoldering and soldering of electronic components, plastic welding, circuit maintenance, beauty styling as well as small-scale industrial hot air processing, featuring flexible operation for high efficiency and ease of use.

◆ Product Data and Physical Performance

Model: BFN F-7200 (HHB-630)

Temperature Range: 50-630°C (Adjustable)

Core Function: Digital Temperature Display Function

Material Code	Weight	Packaging Method	
1.5.07.09.0007	1kg	1 unit/box
