

Constant Temperature Soldering Station

◆ Product Description

This constant temperature soldering station is bk2000 model, industrial grade standard, high-frequency design, 120w power, adjustable constant temperature and anti-static, accurate welding and fast heating for industrial welding.

◆ Product Advantages

- Bk2000 Model, Industrial Grade and Reliable Quality.
- High-frequency Design, Fast Heating and High Efficiency.
- Adjustable Constant Temperature, Accurate Welding Temperature.
- Anti-static Design, Protect Electronic Components.
- 120W Power, Suitable For Industrial Grade Welding.

◆ Product Structure

It is an industrial grade structure, high-quality main material, equipped with high-frequency heating module and constant temperature control system, anti-static design, strong soldering pen adaptability and stable welding.

◆ Application Scenarios

It is suitable for industrial production, electronic maintenance, circuit board welding and precision instrument welding, industrial grade performance, anti-static design to ensure welding quality and efficiency.

◆ Product Data and Physical Performance

Main Material: High-quality Metal, Sturdy And Durable.

Heating Performance: High-frequency Heating, Fast Temperature Rise.

Temperature Performance: Adjustable Constant Temperature, Accurate Temperature.

Safety Performance: Anti-static, Protect Components.

Durability Performance: Industrial Grade Quality, Long Service Life.

Material Code	Weight	Packaging
1.5.22.03.0005	2.5kg	1set/carton

◆ Remarks
