

Glue Mixing Stick

Product Description

This glue mixing rod is used for uniform mixing of two-component glue, with high mixing efficiency and full glue without bubbles, sturdy and durable for various industrial glue.

Product Advantages

- Uniform Glue Mixing, No Bubbles Or Layering
- Efficient Stirring, Improving Mixing Speed
- Sturdy Material, Not Easy To Deform Or Damage
- Strong Adaptability, Compatible With Various Glues
- Easy To Operate, Simple And Quick To Use

Product Structure

It is an integrally formed glue mixing rod structure with spiral stirring blades, straight and stable rod body, uniform stirring surface for fast glue mixing.

Application Scenarios

It is suitable for electronics, industrial manufacturing and bonding operations, mixing two-component glue to ensure glue performance and meet bonding needs.

Technical Features

Main Material: High-strength Engineering Plastic
Structural Feature: Integral Molding, Sturdy And Durable

Stirring Feature: Spiral Blade, Full Glue Mixing
Chemical Feature: Glue Corrosion Resistance, Not Easy To Age

Usage Performance: Easy To Clean, Reusable

Item#	Model	Weight	Packaging
1.5.37.00.0006	C15 MS08-32	0.42kg	50pcs/bag
