

Polishing Wheel

◆ Product Description

Special polishing wheel for industrial polishing, excellent wear resistance, uniform polishing effect, suitable for surface treatment of various materials, stable speed, long service life.

◆ Product Advantages

- Excellent wear resistance
- Uniform polishing effect
- Wide range of materials,
- Stable speed,
- Long service life

◆ Product Structure

It is made of high quality abrasive and high strength base material. The structure of the wheel body is compact, the central shaft hole is standardized, and the installation and disassembly are convenient.

◆ Application Scenarios

Metal processing, furniture manufacturing, auto parts polishing, metal products processing, electronic components surface treatment, mold polishing.

◆ Technical Features

Diameter: 100-300 mm

Thickness: 10-50mm

Applicable speed: 1200-3600r/min

Suitable material: steel, aluminum, copper, plastic, wood; abrasive particle

Size: 80-1000 mesh (optional)

Item#	Colour	Weight
1.5.44.00.0230	red	0.06kg
