

## Face Mask

### ◆ Product Description

This activated carbon protective mask is designed with a breathing valve and features reliable filtering effect. It is packed 10 pieces per box, which can effectively block dust and odors. It is breathable and comfortable to wear, suitable for long-term protection.

### ◆ Product Advantages

- Activated carbon layer absorbs odors
- Breathable with breathing valve, stuffiness-free
- Good fit and tight seal to the face
- Individually boxed, hygienic and portable
- Long-lasting protection and comfortable to wear

### ◆ Product Structure

Composed of multiple layers of filter materials, it is equipped with an activated carbon adsorption layer inside and an external breathing valve. Paired with elastic ear loops and a nose clip, it fits the face closely, balancing protection and breathability.

### ◆ Application Scenarios

Suitable for scenarios such as decoration and grinding, environmental sanitation cleaning, chemical odors, workshop operations, daily commuting, etc. It can protect against dust, odors and particles to ensure respiratory health.

### ◆ Technical Features

- Made of a combination of non-woven fabric, activated carbon filter layer and melt-blown filter material
- Efficiently filters dust and particles with stable protection effect
- Activated carbon layer can absorb organic odors and harmful gases
- Breathing valve reduces exhalation resistance, no stuffiness even after long-time wearing
- Nose clip and ear loops ensure a firm fit and prevent shifting
